Joe & Monica,

We'd like to express our sincere thanks to you both for all your hard work, effort and dedication in making this "Dream Home" a reality!

Words cannot adequately describe the place that we will come home to. Some have called it a mansion or a castle... I like to think of it as a creative masterpiece... beginning as an obscure idea some 5 years ago, gradually making its way to paper where some extraordinary individuals with their own creative processes were able to bring it to life!

We appreciate all the painstaking attention to detail that went into each task and this whole project. You have a very fine crew—professional and conscientious. Thank them as well.

From the first shovel of dirt being moved to the final lock on the door...this whole experience has been an adventure we will never forget. Thanks for being part of it!

Vince Lombardi once said, "The quality of one's life is indirect proportion to one's commitment to excellence." With you guys, that statement rings true! Excellent! Keep up the good work and once again, thank you!!

God bless you and keep you.

With warmest regards,

The Henry Family
Craig, Amber, Miranda, Brooke-Lyn and Coryl
